

Light theme						
type of colour	HEX value	visual colour	known as	used on these components	observations	observations after implementation
primary	#232429		"earthy black", custom	hero section, global nav menu	used only on big main areas	
primary variant	#495057		lighter "earthy black"	headings, body text		
secondary	#0d6efd		blue, 'Bootstrap primary button'	background colour for primary buttons, outline colour for secondary buttons, links, some icons	used only on action areas	
secondary variant	#4d87ff		lighter blue, based on 'Bootstrap primary button'	not currently used	this value SHOULD replace the default blue for tags (#1e83c2)	
background	#FFFFFF		white	background colour for all pages		
surface	#f8f9fa		light grey	background colour for statements cards, dashboard cards		elevation needed, so Surface colour was changed from #FFF to #f8f9fa
error	#F8D7DA		light red, "Bootstrap danger alert"	background for error messages		
on primary	#f3e6d7		butter (custom), aka "pinky beige"	text on global nav menu, headings placed on 'earthy black' areas		
on secondary	#FFFFFF		white	text on 'Bootstrap primary buttons'		
on background	#495057		lighter "earthy black"	??		
on surface	#495057		lighter "earthy black"	??		
on error	#721c24		red, "Bootstrap danger alert"	text on error areas	not used?	
alternative grey	#eee		light grey	"no verdict" card		
alternative darker grey	#aaa		medium grey	"undecidable" verdict card		
alternative red	#d90404		red	"false" verdict card		
alternative red-yellow	gradient from #d90404 to #ffeb3b		gradient	"in general false" verdict card		
alternative yellow	#ffeb3b		yellow	"mixt" verdict card		
alternative green-yellow	gradient from #37700a to #ffeb3b		gradient	"in general true" verdict card		
alternative green	#37700a		green	"true" verdict card		

Dark theme						
type of colour	HEX value	visual colour	known as	used on these components	observations	observations after implementation
background	#232429		"earthy black", custom	background for all pages, INCLUDING hero section	earthy black' is NOT the primary colour anymore (as in Light theme)	
surface	#303035		lighter "earthy black"	not used yet	SHOULD be used on global nav menu?	
primary	#599AFD		desaturated blue, derived from 'Bootstrap primary button'	not used yet	this colour MUST REPLACE the current blue (#0d6efd) used for links, for example, because that colour fails WCAG AA standard for accessibility	
primary variant	#4273BD		darker primary	not used yet; CAN be used ONLY on LIGHT SURFACES (like Toasts, the page-bottom alerts)	ok with WCAG AA when used as surface with WHITE text	#4273BD text on Surface colour (#303035) fails WCAG AA for Normal & Large text; #4273BD text on Background colour also fails WCAG AA for Normal text
secondary	#C9BCAE		desaturated 'butter', aka medium beige	used on secondary buttons		
secondary variant	#8A8178		darker secondary	used as surface colour for deleted comments; do not use it as text colour	ok with WCAG AA when used as surface with BLACK text	#8A8178 text on Surface color (#303035) fails WCAG AA for Normal text
error	#FF7579		desaturated red, derived from 'error red' from Light theme	text for error messages	passes WCAG AA standard when used on #232429 and #303035 areas	
on primary	#232429		"earthy black"	not used yet on #599AFD areas	to be used for text on primary buttons; passes WCAG AA standard when used on #599AFD areas	
on secondary	#232429		"earthy black"	not used yet on #C9BCAE areas	to be used for text on secondary buttons; passes WCAG AA standard when used on #C9BCAE areas	
on background	#c4c5c6		light grey	body text, already in used	passes WCAG AA standard when used on #232429 areas	
on surface	#c4c5c6		light grey	body text, already in used	passes WCAG AA standard when used on #303035 areas	
on error	#232429		"earthy black", custom	text only (not areas); not used yet on #FF7579 areas	passes WCAG AA standard when used on #FF7579 areas	
alternative grey	#303035		lighter "earthy black"	"no verdict" card		
alternative darker grey	#3C3C42		even lighter "earthy black"	"undecidable" verdict card	not used yet	
alternative red	#ff5055		desaturated red	"false" verdict card; to be used with dark grey text (at least #121212)		former value (#5d1717) was too saturated (800); current value has 400 saturation
alternative red-yellow	gradient from #ff5055 to #fceb55		gradient	"in general false" verdict card		
alternative yellow	#fceb55		desaturated yellow	"mixt" verdict card; to be used with dark grey text (at least #121212)		former value (#b7a92d) was too saturated (700); current value has 400 saturation
alternative green-yellow	gradient from #A6D25B to #fceb55		gradient	"in general true" verdict card		
alternative green	#A6D25B		desaturated green	"true" verdict card; to be used with dark grey text (at least #121212)		former value (#285206) was too saturated (900); current value has 400 saturation
